MONEY, BONDS AND STOCKS.

Large Business at New York, Accompanied

by Considerable Excitement. NEW YORK, Oct. 19 .- Money on call was easy at 2721 per cent., the last loan being made at 2 per cent., closing offered at 2 per

Prime mercantile paper, 47 264 per cent. Sterling exchange was duil but steady to firm at

34.84 for sixty-day bills and \$4.88 for demand. The sales of the day aggregated 369, 702 shares, including the following: Delaware, Lackawanna & Western, 5,500; Lake Shore, 11,630; Missouri Pacific, 23,777; Northwestern, 6,850; Northern Pacific preferred, 44,753; New England, 15,460; Oregon Transcontinental, 17,200; Reading, 11,-356; Richmond & West Point, 25,268; St. Paul, 18,560; Union Pacific, 131,440; Western Union,

The transactions in the stock market to-day were larger than for many days, and were at tended by considerable excitement, especially in the afternoon, when prices gave way and rapidly declined in most of the active shares. The feeling in the forenoon was almost entirely bullish, though the traders were selling, even at that time, but the buying was good and there seemed to be a wider interest to the speculation. Later, however, Atchison declined rapidly, and a drive was made at the Gould stocks, Missouri Pacific In particular, while the news of the \$1,000,000 failure in Chicago came in to unsettle confi-Pence and the "bears" were not slow to take advantage of the favorable combination. Stop orders were reached all over the active list, and prices declined rapidly, carrying even the strong stocks of the forenoon with them, and at the close almost all the early gains had been wiped out. Union Pacific was again the great feature of the market, and during the forencon was very strong on a still larger business than has been scored on any previous day. The buying which has been so persistent in the stock is still a mystery to the street, and to-day many influential men were mentioned as the probable purchasers, while the friends of the stock were prophesying an early dividend. The Northern Pacific group next loomed up into prominence, and the Northern Pacific prefered. and Oregon Transcontinental both made handsome gains. A sudden and radical change came over the temper of the speculation, however, and Atchison and Missouri Pacific led, while all the Boston favorites were specially weak. Norfork & Western perferred was also quite weak on a light business; the strong stocks all joined the procession, and before the close Union Pacific had been depressed nearly 1 per cent below the closing price of last evening. First prices were from ; to ; above last night's figures, and under the lead of Union Pacific the market rapidly advanced, the gains in the leaders extending to 11 per cent.
The advance stopped about noon, and after that time there was a slow decline in the general list, while Missouri Paeifie, Richmond & West Point preferred and Rock Island lost heavily. Atchison made another dip and the whole market soon became demoralize !, and in the last hour Union Pacific became a feature in the decline. The market showed no change, and the close was active and weak at the lowest prices of the day. The active list is almost invariably lower, and Atchison lost 41: Missouri Pacific, 21; Norfolk & Western Point preferred, 12, Chicago, Burlington & Quincy, 12; Oregon Short-line, 1 per cent., and

others fractional amounts. The railroad bond market was quiet, though the Reading issues were again prominent for activity. The sales of all issues reached \$1,157, 000, and to that amount Reading seconds furnished \$115,000, and the thirds \$130,000. The market followed the share list very closely, being firm in the forenoon, but it weakened later, and the gains are in a majority this evening. Important changes in quotations, however, are few in number. The losses include Gulf, Colorado & Santa Fe seconds, 21 at 90, and Iron Mountain fives, 2 at 874. CHICAGO, Oct. 19 .- Trading in wheat was slow to-day, and the market on the whole very quiet, though occasional sparts were witnessed, when moderate trading occurred. Very little outside business was done, and local operators also restricting their trading in wheat, there being a general disposition to hold aloof from the market while it is in the present condition. The opening was stronger and higher, and an advance of lie for December and le for May on the closing figures of yesterday was soon established. Prices then declined 121tc, held within this range, and closed about je higher for December and to lower for May than yester-Speculative transactions in corn of only moderate volume, very life or animation being

played. The prevailing feeling was one of steadiness, the market opening at about closing prices of vesterday, and ruling inactive some time, the fluctuations being parrow. A short period of activity then followed, the maket rul-ing stronger and advancing to from the inside price; reacted ic, rnling steady and closing the same as yesterday. Oats were quiet but firm, and near futures were the same to ic better, as compared with yesterday's closing. May delivery, which is the center of trade, was comparatively quiet, ranging to lower early, reacting later and closing finally to easier. Mess pork was active, especially for January delivery, advancing 27to from yesterday's close, reacting 12c, railying 7tc, but gradually weakening and closing at a moderate advance over yesterday's last sales. Trading in other futures was light and prices were confined to a narrow range. In lard there was a fair demand for all the principal futures early, but later the market became quiet. Offerings were not large, and a steady feeling prevailed There was a fair trade in January ribs, but other futures were neglected. Offerings were moderate and demand at times quite brisk, and prices advanced .10c, but outside figures were not maintained to

DUN & CO.'S REVIEW.

Breadstuffs Exportations at a Standstill-Legitimate Trade, However, Is Very Large. NEW YORK, Oct. 19 .- R. G. Dun & Co.'s weekly review of trade says: Exports of breadstuffs, cotton, provisions, petroleum and cattle from the principal ports in September were \$33,208,679 in value, against \$37,049,761 last year. But since Oct. 1 the breadstuffs movement has been almost entirely arrested, as is natural, with prices at New York higher than at Liverpooi, and December wheat as high at Chicago as at New York. Perception of the unnatural state of the markets has led to some declines during the week, wheat having fallen 42c. corn 2%c, bogs and lard te each, cotton to, refined oil the same, and petroleum certificates

During the week the treasury paid out \$12.-000,000 gold, \$2,400,000 silver, and \$900,000 legal tenders. An addition of over \$15,000,000 to the circulation in a week would tend, in ordinary conditions, to lift prices in speculative markets, and yet the tendency in prices has been downward during the week. Every interior point reporting represents business as improving, and at not a few points it is larger than a year ago. The increased transactions at speculative centers swell bank clearings, so that the increase outside of New York over last year is about 10 per cent. . but, with full allowance for the influence of speculation, it is evident that the volume of legitimate trade is also very large. No complaint of scarcity of money is heard, and the demand from this city, though still large, shows some signs of abatement. Nor are complaints of tardiness in collections as frequent as they

A decrease of 1,000 tons in the weekly output of charcoal iron makes the net increase during September in iron of all kinds, 3.645 tons weekly, or 3 per cent. The market for pig is a waiting one, without change in prices. Bar iron is rather less firm, owing to Western offering, and in rails no Eastern sales are reported, and only 10,000 tons at Pittsburg and 20,000 tons at Chicago. The official report shows that sales for nine months, ending Oct. 1, were 1,134.883 tons. against 1,833,126 last year, and deliveries 921,363 tons, against 1,390,825 last year. The coal trade is now quiet. In lead a fail of 40 cents per 100 pounds in a day was attributed entirely to speculation, and the same influences lifted coffee slightly, though the distributive demand is still restricted. The sugar market favors buyers, and in groceries generally there is some evidence of slacking demand. The wool market continues strong, with the best grades scarce, and prices have again slightly advanced. A firmer feeling is noted in dry goods, though the trade at present is only moderate, and buyers continue to operate with caution.

The failures occurring throughout the country during the week number 224, as compared with 227 last week, and 211 the week previous. For the corresponding week of last year the figures were 201.

MINNEAPOLIS, Oct. 19 .- Wheat-Sample tables vere not well supplied with sample grain and a better inquiry was apparent from local millers at the start, but it soon died out entirely. But a small portion of the 322 cars were posted as receipts were displayed for sale, and sellers were holding for higher prices. Orders from outside mills showed a fall ng off, and with reports from winter-wheat sections that mills were shutting down, buying by city millers was not specially active. Still, about all the best grades were taken before the close. Some of the lower grades were not disposed of. Oil. NEW YORK, Oct. 19 .- Petroleum market to-day was weak and the trading was larger than it has been for many months. Liquidation by stock-houses on so large a scale that orders from the New York Stock Exchange had to be sent to Pittsburg, and to the Consolidated Exchange was the principal cause of the weakness, and on selling for the account broke the market every time it showed a disposition to rally. The price declined 740 during the day, but recovered a small part of this loss before the close. The opening was weak at 923sc, and after a slight rally the market became excited, and on heavy selling by Standard Oil operators and brokers for Stock Exchange houses the price quickly fell to 87c, then rallied to 88c, when a block of 200,000 barrels broke it again and stop orders and continued liquidation forced the and stop orders and continued liquidation forced the price to 85 4c, when another rally occurred, after which the market closed weak and excited at 84 4c. INDIANAPOLIS MARKETS.

The Effects of the Late Heavy Rains Still Interfering with Trade. INDIAMAPOLIS, Oct. 19.

Trade to day, as well as in the two days preceding, owing to the heavy rains and bad roads, has been rather quiet, yet the situation generally is quite satisfactory. Staple groceries are very firm in tone, and especially will this remark apply to sugars. In coffees there is a slight advance, but many dealers are afraid to buy, fearing that looked-for receipts of Rios and Santos will lower the market. As a consequence stocks in the hands of jobbers and retailers have diminished to such an extent that higher prices will probably prevail for a time, at least. In the produce markets there is a good deal of activity. Apples and potatoes are both selling better, and parties who are able are now laying in their winter stocks. Poultry is steady at present quotations. Eggs are in light supply and selling readily at 17 cents. Choice butter finds ready sale. The seed market continues active, with firm prices. The leather dealers report trade good at unchanged prices, while the hide market is active, although prices are no higher with the increas-

ing activity. The local market was in better shape to-day, wheat being in active demand at a snade higher prices. Offerings of corn are light and with a limited demand. Oats rule steady. To-day track bids ruled as follows.
